

Office Memorandum • UNITED STATES GOVERNMENT~~CONFIDENTIAL~~

TO : Chief, Geography Division
Chief, Cartography Division
Chief, Photo Intelligence Division

FROM : Chief, Geographic Research

DATE: 19 August 1955

SUBJECT: Coordination of Guided Missile Support Work in the Geographic Area

25X1A9a

1. [REDACTED] has been appointed and has been functioning for some time as a coordinator of Geographic Area work in the guided

25X1A9a

missile field. He is currently representing the Area on an Office committee, chaired [REDACTED] who is the ORR representative on the Ad Hoc Guided Missile Intelligence Survey Committee, established by IAC action 19 July 1955.

25X1A9a

2. [REDACTED] will primarily represent the Geographic Area in subject fields concerning themselves with positioning problems. However, in order to be effective in his coordination, he must be aware of all types of research and support activities of this Area which relate themselves to the whole field of guided missiles. These activities have, in the past, been performed by the three divisions (Cartography, Geography, Photo Intelligence) and have been in the nature of supplying answers to direct requests, usually from the Office of Scientific Intelligence.

25X1A9a

3. [REDACTED] in order to develop full awareness of all Geographic activities related to guided missiles, will periodically brief himself with appropriate officials of each division. He will be provided the opportunity by the division to engage in whatever discussion are essential for the acquiring of full information or for bringing to bear upon individual projects the support capabilities of his own staff.

4. In the periods between the checks which [REDACTED] will make on new work received, each division and branch chief is requested to notify him of the receipt of significant work requests which directly relate themselves to the guided missile intelligence problem.
